

REMARKS-General

Applicant acknowledges the allowability of claims 1-6. The amended independent claim 1 incorporates all structural limitations of the original claim 1 and includes further limitations previously brought forth in the original allowable claim 1, including any intervening claims. The amended dependent claims 2-6 are rewritten from the original allowable claims 2-6 respectively. No new matter has been included. All claims 1-6 are submitted to be of sufficient clarity and detail to enable a person of average skill in the art to make and use the instant invention, so as to be pursuant to 35 USC 112.

Response to Rejection of Claims 1-6 under 35USC112

The applicant submits that the amended claims 1-6 particularly point out and distinctly claim the subject matter of the instant invention, as pursuant to 35USC112.

The Cited but Non-Applied References

The cited but not relied upon references have been studied and are greatly appreciated, but are deemed to be less relevant than the relied upon references.

The appended Abstract is submitted herewith to replace the corresponding Abstract in file.

In view of the above, it is submitted that the claims are in condition for allowance. Reconsideration and withdrawal of the objection are requested. Allowance of claims 1 to 6 at an early date is solicited.

Should the Examiner believe that anything further is needed in order to place the application in condition for allowance, he is requested to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Raymond Y. Chan
